bonyf NV is a Belgian company specialising in the research, development, production and distribution of innovative oral and dental products. Its extensive range of patented products are the result of 20 years in-house research and development conducted in bonyf's facilities in Liechtenstein, the renown dental valley. Products are manufactured at bonyf's production site in Switzerland under strict international regulations to ensure consistent product quality.

bonyf's mission is to improve health and wellbeing to transform lives of people suffering from infection induced oral and dental problems. To ensure the effectiveness of its products, bonyf invests in high quality scientific research. A healthy mouth is vital in maintaining good overall health, especially for those with a compromised immune system. Harmful bacteria, viruses and fungi in an infected mouth can invade other parts of the body. bonyf sustains oral and dental hygiene through next generation revolutionary products.

A company on a sustainable growth trajectory

bonyf's development strategy focuses on four main areas:

- An ambitious 2022 marketing plan to roll out OlivaFix® Gold and PerioTabs® in Europe with respective targeted countries for each product.
- Strategic partnerships with leading pharmaceutical companies to distribute bonyf's innovative products.
- Opportunities to monetise large-scale R&D already conducted through licensing agreements and patent assignments for certain regions.
- New products under development with patent opportunities.
