

bonyf recently secures its EU Patent, US patent pending, for PerioTabs® & PerioCream, launch in March 2025 at the IDS Cologne

Knokke-Heist (Belgium), 13 March 2025, 6:00 a.m.; **bonyf NV (Mnemonic: MLBON)**, a leader in dental consumer goods and professional dental consumables, presents PerioTabs® and Periocream at the future exhibition in Cologne from 25-29 March 2025 at the IDS, leading global trade fair for the dental community. PerioTabs®-Periocream's participation in this premier event highlights its potential to revolutionize dental care practices globally. Visit bonyf at the IDS Hall 5.2, Booth 131.

Products Overview:

1. **PerioTabs®**: Designed for daily at-home use, PerioTabs® is an effervescent tablet that dissolves in water to create a brushing solution. This advanced formulation targets and eliminates oral biofilm accumulation on gums, teeth, and dental implants, effectively reducing the clinical signs of gingivitis, periodontitis, peri-mucositis and peri-implantitis.
2. **Periocream**: Intended for professional application, Periocream is used by dental professionals after scaling and root planning to form a protective barrier over the gum line. This barrier aids in reducing bleeding, alleviating pain, and promoting faster healing, enhancing patient comfort.

Innovative Features:

1. **Advanced Anti-Biofilm Formula**: Both products utilize the clinically proven NitrAdine anti-biofilm formula, which disrupts and eliminates biofilm — a primary contributor to periodontal diseases.
2. **Dual Application Approach**: By offering an at-home daily solution and a professional-grade post-treatment cream, PerioTabs®-Periocream provides a comprehensive strategy for managing and preventing Periodontal diseases.

Showcasing at IDS 2025 (25/03 till 29/03) – Hall 5.2, Booth B 131:

The International Dental Show (IDS) is the leading global trade fair for the dental community, attracting over 2,000 exhibitors from 60 countries and more than 120,000 visitors from 162 countries. PerioTabs®-Periocream's participation in this premier event highlights its potential to revolutionize dental care practices globally.

Attendees are invited to visit the PerioTabs®-Periocream booth to experience firsthand demonstrations, gain insights into the cutting-edge science behind the products, and discuss potential collaborations.

With its patented technology and dual-action approach, PerioTabs®-Periocream is poised to set new standards in oral healthcare, offering both professionals and consumers effective tools in the fight against periodontal diseases.
